

ORACLE® Oracle Training

Oracle Business Intelligence

Course Overview This Oracle BI: Create Analyses and Dashboards course provides step-by-step instructions for creating Oracle BI analyses and dashboards in business intelligence applications. You'll begin by building basic analyses to include in dashboards, with more complexity as the course progresses. effectively review and plan your day.

Introduction to SQL

Course Overview Introduction to SQL training helps you write subqueries, combine multiple queries into a single query using SET operators and report aggregated data using group functions. Learn this and more through hands-on exercises.

PL/SQL

Course Overview The PL/SQL programming training is designed to give the student hands-on exposure to Oracle PL/SQL. The student learns by coding, with in-class exercises and the student will be guided from very simple PL/SQL programs to increasingly complex PL/SQL coding techniques.
